

The University of North Georgia offers degree programs that meet the educational requirements students need to apply for professional licensure or certification in Georgia. The programs may not meet the education requirements for licensure or certification in other states.

Students who plan to pursue professional licensure should contact the program coordinator and appropriate licensing entity for additional information and guidance.

Upon successful completion of the program, University of North Georgia graduates will have \_\_\_\_\_ requirements and will be eligible to sit for the certification exam required for practice as an FNP.

Graduates with FNP certification can apply for licensure in

Applicants are encouraged to determine the specific requirements for any jurisdiction, including the state of Georgia, in which they intend to receive their nursing certification by contacting their state's [board of nursing](#).
